

## DELL QUAY SERIES

 **fletcher**  
USCUI

The Dell Quay Sportsman offers the facility of being a great fishing boat package or a family ski boat package. An ideal boat for all the family to enjoy.

## DELL QUAY SERIES

The Dell Quay Sportsman 15 offers great family boating and is one of the most adaptable boats in our range.

Equally at home either pottering up the river with a 25hp engine taking it easy as you watch the world go by, or blasting along the coast with a 60hp ETEC to explore new coves before skiing with friends and family.

Due to its cathedral style hull the Dell Quay offers a stable platform from which to fish or simply 'suit up' before taking the plunge. When under way, the flared bow helps keep spray from passengers and the all round stainless steel grab rail provides plenty of security for all aboard.

Storage is a particular feature of this boat with two lockers aft – which can be converted to live bait wells – under seat storage at the helm and in front of the console, storage within the console itself and a waterproof locker forward.

A folding radar arch can be added to mount further equipment and a pram hood is available for extra protection against the elements.

This versatile boat is also available in 'Fish' version which comes with two wooden thwart and a side console. This gives the avid fisherman plenty of room to set rods and conjure up tails of the 'one that got away'!
