

19 GTSC SPORTSCRUISER

 **fletcher**

With Fletcher's legendary deep-v hull design and stern drive power, the 19 GTSC Sports cruiser is a genuinely versatile craft.

Black 19 GTSC Sports cruiser as featured in the film 'Stormbreaker'

## 19 GTSC SPORTSCRUISER

The Fletcher 19GTSC Sports cruiser has to be one of the prettiest looking boats in her class.

Generous overnight accommodation is provided in the cuddy cabin without sacrificing external lines. Whilst perfectly adapted for inland cruising, she is a sportsboat at heart and is well equipped to handle anything inshore coastal waters can throw at her.

High topsides and ample hand rails ensure you are kept safe and dry. A true deep v hull and full length strakes offer a smooth and predictable ride.

The boat comes with a full camper hood as standard. This marvellous accessory can be used as a spray hood and then sides can simply be zipped in if the weather changes with the final addition of a zip-in back section to completely enclose the cockpit. The supplied in-fill cushions turn the cockpit into a 'sundeck'

and provide sleeping for two small adults or children. Pop the cushions away and erect the central table for 'al fresco' dining.

A hand pump sink is located under the port cushion as is a space for a stove. Down below another in-fill ensures very generous sleeping accommodation with storage underneath for the optional Portaloo.

The beauty of this boat is its versatility. Open boats are great but if the weather turns or the kids get a bit cold the day is pretty much over. With the Sports cruiser you can simply put up the spray hood, send the kids below to get warm and carry on with your day.

The higher horsepower engines enable you to enjoy all the sports performance and water based activities you can handle.

Everything you need to get you started is included in the standard package.

Rear transom storage

2 beth cuddy

Self draining cockpit with underfloor storage locker and showing the teak effect flooring

Standard sink and optional single burner cooker
